"Digital Discipleship: Embracing Technology in Ministry"

Description:

This PDF outlines how to effectively use technology to foster discipleship and community within the church. It covers social media outreach, digital small groups, and online resources for spiritual growth.

Key Factors:

- Social media best practices
- Online group meeting platforms
- Digital resources for Bible study
- Cybersecurity for churches

Why It's Important:

Leveraging technology broadens the church's reach, making discipleship accessible to more people and accommodating different learning styles and schedules.

How to Share:

Offer as a download on the church website and share links through email blasts and social media channels. Provide printed copies for those less tech-savvy.

Summary:

"Digital Discipleship" guides churches in harnessing technology to expand their ministry and connect with members and seekers in today's digital age.
